Partnership Agreement

Children need healthy childhoods, as well as loving and skillful parenting that honors their loyalty to their biological family and their need to develop and maintain permanent lifelong connections. The purpose of this document is to articulate a common understanding of values, principles, and relationships necessary to fulfill this responsibility in a respectful, positive, and collaborative manner.

The partnership CFS seeks to engage our caregivers in is grounded in the following agency beliefs:

We believe families can keep their children safe with support.

And if they can't...

We believe children should be cared for in a familiar, nurturing and safe environment.

And while they are in care...

We believe every child is entitled to thrive through stability (health, education, & placement), family connections, quality treatment and a voice in planning.

We believe, through partnership and support, parents can grow and change in order to safely parent their children.

And if the children cannot return home...

We believe all children deserve a sense of belonging, permanent and unconditional commitment in a lifelong family.
